

Diagnostic Study Follow-up Policy

If Dr. Omev requests for you to have a diagnostic study (i.e. MRI), you will be given an order for the study. You will be instructed to contact the facility and schedule an appointment for a time that is convenient for you. Once the study has been completed, call back and schedule an appointment to follow-up with Dr. Omev to review your study. Dr. Omev likes to discuss your study results in person to discuss treatment options. Depending on the results of your study, there may be many treatment options that are available to you.

Please call (817)-332-6639 and schedule a follow-up after the study. **This is your responsibility.**

I am aware that it is my responsibility to schedule a follow-up appointment after my study has been completed.
